

VISITOR NOTICE:

While we are not aware of any potential or confirmed COVID-19 cases in our community or building, to protect our seniors and employees who care for them, we are temporarily restricting visitors to essential visits only, as recommended by the CDC (a general recommendation for senior care settings).

We know taking this step may add fear and confusion to what might already be a frightening situation, but be assured we will work hard to keep your loved one(s) safe and well cared for. In addition to this facility restriction, we are following all recommendations from the CDC and state and local health departments. We understand that maintaining contact will be important for both the family and our residents, and we will support phone and video calls, text messages, emails, and other methods of communication whenever possible. This is a new and developing situation which we will work through as efficiently as we can, and we appreciate your patience and understanding.

If you believe that a visit to your family member is truly essential, please contact the Assisted Living Residence at 218-878-3848 to discuss the situation.
