

The Fond du Lac Band of Lake Superior Chippewa will be accepting bids from qualified entities or individuals to process wild rice this coming fall.

In a typical season a processor would receive daily deliveries of “green rice” from Fond du Lac purchasing staff. These deliveries range from 1,000-4,000 pounds per day and gradually taper off as the season progresses. A typical season requires a processor to handle an average of 20,000 pounds of “green rice” over a period of three weeks. Interested parties should be able to process volumes such as this in a timely fashion to ensure quality of the finished product. Interested parties should provide the rate that will be charged per pound of finished rice.

The Fond du Lac Band will be accepting bids via email until 4pm August 24, 2018. Interested parties should send their proposal to lindawhitebird@fdlrez.com or call Linda Whitebird with Fond du Lac Resource Management at (218) 878-7101 for more information.
